

# Activity 1: ANIMATED TEXT BANNER

## Using Flash

### Tasks

1. Create an animated Text banner for a website (Assignment 1).
2. Export the banner as an animated gif (eg banner.gif)
3. Add the banner to your assignment
  - Add the banner.gif to the images folder
  - Replace the background gif of the header, img02.gif with the new banner.gif)
  - Remove the old header text (eg IT MM)

```
Code from CSS
#header {
  width: 800px;
  height: 80px;
  margin: 0 auto;
  background: url(images/img02.gif) no-repeat left top;
}
```

### Constraints

Set the size of the flash banner to be 800 by 80 which is the size of the header in the assignment.

Design the banner, using skills learnt from Flash tutorials 1-4

See banner.gif as an example banner.

Your animated banner could include:

- Tweening of objects
- Animated text
- Layers
